### Public Hearing—

This meeting was held at the Lansing Church of God and Christ (the first in a series of meetings to be held outside the City Hall). There were approximately 50 people present at this meeting (members of families being displaced by the I-496 highway) to discuss with the Committee, their problems and complaints of being

unable to find homes in their price range and being unable to find homes in areas equal to the areas in which they are presently living. Demands were made by the residents to discontinue the highway construction until adequate housing is found for the displaced families, even if it would mean the possible loss of federal funds.

Mr. William Mateer—Housing Director, and Mr. Marcell Elliott from the relocation office were also present at the meeting. Mr. Mateer answered a number of questions asked him by the audience regarding available low-rent housing. After this had been reviewed and the highway department time table was given for razing homes along the corridor, many expressed their feelings as to the deadlines.

The Director stated due to industrial expansion and the people coming to Lansing to live from out State have complicated the problem of providing ample housing for people in the corridor.
